# Wednesday, June 27<sup>th</sup> Industry tours

**STX** Located on the Atlantic Coast for 150 years, STX France is a company dedicated to maritime construction and services to operating floats. Thanks to the expertise of its staff and its sub-contractor network, combined with up-to-date industrial facilities, the company is one of the leaders for designing, building, erecting and commissioning highly complex ships and maritime installations.

**IRT Jules Verne** Since March 2012 IRT Jules Verne is a mutualized industrial research institute dedicated to advanced manufacturing technologies. Based in Nantes and central to the Loire Valley Region's economic strategies, IRT Jules Verne embraces the industrial, scientific and technological challenges that concern four strategic industries (aeronautics, shipbuilding, automotive and energy).

### There will be buses organised to go from Pornichet to IRT Jules Verne and STX!
